<b>Office Action Summary</b>	<b>Application No.</b> 10/758,398	<b>Applicant(s)</b> SEKIYA, TAKURO	
	<b>Examiner</b> Scott Kastler	<b>Art Unit</b> 1793	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/30/2007 has been entered.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 8, 9 and 11-13 are rejected under 35 U.S.C. 102(b) as being anticipated by the US patent No. 6,338,545 B1 to Sekiya (Sekiya'545). Sekiya'545 teaches a jet type device which dispenses a solution containing fine particles including a jet head which comprises a nozzle having a size less than  $\Phi 20 \mu\text{m}$ , (see Tables 3 or 4 at col. 14 for example) which also meet the relation of  $0.0001 \leq D_p/D_o \leq 0.01$  (see again Tables 3 and 4 for example), where the droplets are formed either through the use of mechanical or thermal means meeting the instant claim requirements, a driving unit for relatively moving the jet head and a substrate (see figure 6 for example), and a filter, thereby showing all aspects of the above claims since the actual

manner or method of use of the claimed apparatus (for fabrication of wiring or a device or deposition of a pattern of any desired thickness) cannot be relied upon to fairly further limit claims to an apparatus where as in the instant case, the applied prior art could be employed to perform the recited method or manner of use. See MPEP 2114 and 2115.

### ***Response to Arguments***

Applicant's arguments filed on 8/30/2007 have been fully considered but they are not persuasive. Applicant's argument that Sekiya'545 does not show or suggest the use of the device for the purpose instantly claimed is not persuasive. As stated above, the manner or method of use of an apparatus cannot be relied upon to fairly distinguish claims to the apparatus itself. See MPE 2114 and 2115. The instant claims are all directed to an apparatus, and the apparatus of Sekiya'545 both meets all of the recited structure and could be employed to perform the method recited in the instant claims, therefore, regardless of whether or not the apparatus of Sekiya'545 actually discloses or suggests the recite method of operation, Sekiya'545 anticipates the instant apparatus claims.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Kastler whose telephone number is (571) 272-1243. The examiner can normally be reached on Monday through Friday.
